

True Value of Membership

As the current Government Affairs committee chair, board member and a 14 year member of the Colorado Association of Mortgage Professionals, I am extending to you an open invitation to increase the value and enhance your CoAMP membership experience.

The value in membership started for me during my first trip to the NAMB Legislative conference in Washington DC. That was where I found my passion. Other members have found this passion and increased the value of their membership by participating in other committees and organizing events. This is where you will really grow and find the benefits the Association brings, through networking, education and business building strategies that we bring to our members.

So I ask you to take that small step with us this month in Colorado Springs. We will be bringing a delegation of members from all over the state to join us and attend the regular bi-monthly meeting of the Colorado Department of Real Estate (CDRE) Board of Mortgage Loan Originators (BMLO). This regular meeting is scheduled for May 16th at Pikes Peak Library East. We will be gathering for coffee and a snack before the BMLO meeting. Please let us know you are interested by registering.

We look forward to you joining us for this opportunity to observe how the CDRE BMLO functions. This little taste will give you insight on our continuing effort to advocate for you in all aspects of the political spectrum; from the local municipalities and state run board, all the way to Washington DC, where we continue to work to bring balance back to all loan originators as it relates to regulation. Stand together with us and find the greater fulfillment you will discover when you realize the true value of being involved in CoAMP. I look forward to seeing you all in the Springs.

Rock On

Douglas L Braden CoAMP Board member and GA Committee Chair
